

► **Industrial Scales**

## M40 scale – PLATFORM SCALE

April 2006

### OPTIONS

A large variety of weight indicators (LCD display, aluminum housing or battery operation) is available

### DIMENSIONS

1,000 x 1,000m  
1,250 x 1,250m  
1,500 x 1,500m

### CAPACITIES

The M 40 platform can be supplied in 1000kg or 1500kg or 2000kg capacities with dual range capability

### **M 40: Light Industrial Scale**

*Low in cost – High in performance*

*The ideal choice for a variety of Weighing applications*

**M 40** is a series of platforms designed for weighing of heavy loads and volume products in industrial applications, with an excellent price to performance ratio.

Robust industrial design and at the same time maximum portability and low profile, make this series the ideal solution for industry, transport, stock control, warehouse and any other kind of general purpose weighing.

With a resolution of 3,000 approved divisions and dual range capability the M 40 platforms provide precise weighing data for the most demanding needs.

### PRODUCT HIGHLIGHTS

- Superior structural design for use in tough industrial environments
- Painted **steel construction** (ST37) for standard use, with double layer of industrial paint and perfect finish
- **Stainless steel load cells IP67**, OIML approved for 3,000div.
- 4 height adjustable feet
